

Accessible Tourism

ABOUT

Holidaying in Portugal, visiting cities, touring the country to get to know its heritage or enjoying relaxing holidays at the seaside is within the reach of everyone.

Portugal has a good climate, with a great diversity of interests at short distances from each other and an assorted array of activities and tourist services, all prepared to receive all visitors equally, with our customary congeniality and friendliness.

Thinking about who needs special care or has greater difficulty when travelling, albeit temporarily, we have drawn up **itineraries for 20 cities**, indicating accessibility and suggesting routes that enable you to get around safely so that you can visit the main attractions in each place comfortably. There is also information about the various [accessible beaches](#) on the Portuguese coast.

To plan your journey better, we also have information on [accessible forms of transport](#), as well as [accommodation](#) and **restaurants** which have adapted facilities and devices.

See our suggestions in the list below, and visit Portugal. We look forward to welcoming you.
