
Barragem do Castelo de Bode

ABOUT

Located in the River Zêzere, in a zone of great beauty, Castelo de Bode Dam has one of the largest reservoirs in Portugal. It extends across a total distance of 60 kms, spanning the municipalities of Tomar, Abrantes, Sardoal and Ferreira do Zêzere.

Surrounded by leafy vegetation, especially pine trees, the reservoir offers ideal conditions for practising nautical sports or leisure activities in contact with nature. Anyone who wants a more detailed experience of this huge lake may go on a boat trip to visit spectacular landscapes within the reservoir - such as the Island of Lombo, a small patch of land that contains an inn that is ideal for spending a few days in complete tranquillity.
