
Castro Marim Golfe & Country Club

ABOUT

This is one of the newest courses in Portugal, having been opened in 2001, in an area of the Algarve that until recently had no golfing infrastructures at all.

The recently-built course at Castro Marim is part of a truly exceptional tourist development, designed to provide unforgettable moments of leisure.

It has a very special setting in the peaceful atmosphere of the eastern Algarve and was in fact the first course to be built in this region, offering players beautiful views over the Atlantic Ocean, the River Guadiana and the nearby Nature Reserve.

The design of the so-called "Atlantic Course" made use of the natural undulations of the hills and is sprinkled with many ornamental lakes. The fairways have been made with Bermuda grass, whilst the greens are made with the new Penn A4 grass.

What makes the Castro Marim Golf and Country Club really special is its unique blend of history, culture, nature, river, sea, beach and sporting facilities in one single setting, together with its exceptional service and quality. Its proximity to the Benamor course has meant that there is now a new major golfing centre in the Algarve.
