## ABOUT

### Travel insurance for foreigners

Visitors living abroad who are planning to travel to Portugal can now subscribe to the **Health in Portugal Travel Insurance** or to the **Portugal Travel Insurance**, two options adapted to the new pandemic caused by Covid-19. Now foreigners can make their reservations with the refund guaranteed in case of a positive COVID-19 test.

The coverage extends throughout the country and covers medical, surgical, pharmaceutical and hospital expenses associated with Covid-19, as well as expenses for cancellation, interruption, or extension of the trip, also due to pandemic. The purpose is to guarantee, to all those who visit Portugal, that they can travel around the country, safe and with confidence.

This initiative of Turismo de Portugal, in collaboration with Portuguese Insurance companies and brokers aims to strengthen security in Portugal as a tourism destination, as well as the **Clean & Safe** seal and **Portugal Health Passport**, which is now available to all visitors in the country.
